Dear Stuart,

Nurses working in this area of health have reviewed the Appraisal Consultation Document of the technology appraisal of **Aflibercept for the treatment of metastatic colorectal cancer which has progressed following prior oxaliplatin-based chemotherapy [ID514].**

Feedback from them suggests that there are no further comments to submit at this stage on behalf of the Royal College of Nursing.

Thank you for the opportunity to review the document. We look forward to participating in the next stage of the appraisal.

Please acknowledge receipt.

Kind Regards
