Scalding hot bath water results in a child under five being admitted to hospital with third degree burns every day, in the UK

*** Special Offer ***

Sefton Council are offering **free anti-scald valves,** and installation.

This offer is for **people with children aged 0 - 5 years olds.**

If you would like to find out more about this offer then contact :
Sefton Council Contact Centre on : **0845 140 0845**
or email: contact@sefton.gov.uk

Anti-Scald Valves - can reduce the risk of children being scalded by hot water. The valves set bath tap water to a maximum temperature of 48^{0}C. This allows everyone to have a hot bath and minimise the risk of scalding
