Project number 11/118

Appendix index: essential and optional appendices

Title	
Appendix 1. FINAL Protocol NIHR HTA Programme project number 11/118. Updated following final scope (Dec 2012)	Optional
Appendix 2. Search strategies for clinical effectiveness, cost effectiveness and registries	Include
Appendix 3. Quality assessment of included RCTs and SRs	Include
Appendix 4. Study details and patient characteristics of included RCTs and SRs	Include
Appendix 5. Full data extraction of included RCTs and SRs	Optional
Appendix 6. Summary of manufacturer submissions	Appendix 6 has been removed and incorporated into the assessment report pages 303-326
Appendix 7. Excluded papers and reason for exclusion	Optional
Appendix 8. Clinical trials and health services research identified	Optional
Appendix 9. Overview of outcomes of relevance in included RCTs and SRs	Optional
Appendix 10. Table of functional/clinical and quality of life measures	Optional
Appendix 11. Data extraction table of characteristics of eligible cost effectiveness THR and RS studies	Optional
Appendix 12. Key studies reporting costs for resurfacing	Optional
Appendix 13. Key studies reporting costs for THR	Optional
Appendix 14. Excluded cost-effectiveness papers and reason for exclusion	Optional
Appendix 15. Key studies reporting utilities for THR	Optional
Appendix 16. Key studies reporting utilities for RS	Optional
Appendix 17. Excluded studies for registry searches	Optional
Appendix 18. Catalogue of modelled parametric fits to observed time to revision	Optional
Appendix 19. Results from competing risks and KM analyses of revision rates for patients receiving THR and RS interventions.	Include
Appendix 20. Information criteria scores for parametric models	Include
Appendix 21. Plots of KM estimated cumulative hazard versus modelled cumulative hazard	Include
Appendix 22. Flexible parametric fits to observed time to revision	Optional
