

## External Assessment Centre correspondence log

### MT241 PLASMA ARU

The purpose of this log is to show where the External Assessment Centre relied in their assessment of the topic on information or evidence not included in the company's original submission. This is normally where the External Assessment Centre:

- a) become aware of additional relevant evidence not submitted by the company;
- b) needs to check "real world" assumptions with NICE's expert advisers, or;
- c) needs to ask the company for additional information or data not included in the original submission, or;
- d) needs to correspond with an organisation or individual outside of NICE

These events are recorded in the table to ensure that all information relevant to the assessment of the topic is captured. The table is shared with the NICE medical technologies advisory committee (MTAC) as part of the committee documentation, and is published on the NICE website at public consultation.

#	Date	Who / Purpose	Question/request	Response received
