------------------	------	--

## Notes

1. Welcome and Declarations of Interest: SN welcomed the group to the third meeting of this GDG. There were no formal apologies. The group was introduced to the GDG Cooptee Laboratory Pathologist, TK. The Chair asked all GDG members to declare any relevant conflicts of interest. All GDG members declared that they knew of no personal specific, personal non-specific, non-personal specific or non-personal non-specific interests that would present conflicts in the development of this guideline.
2. Confirmation of the Minutes of GDG 2: The GDG confirmed the accuracy of the circulated minutes.
3. Evidence Review: The GDG heard evidence related to the following clinical questions:
  - a. What is the clinical and cost effectiveness of serum-specific IgE test in the diagnosis of drug allergy for the following drugs: penicillin G, penicillin V, ampicillin, amoxicillin, cefaclor, suxamethonium, chlorhexidine, morphine?
  - b. What is the clinical and cost effectiveness of serum tryptase for the diagnosis of severe drug allergy reaction?
4. Review Protocols: Review protocols were finalised for the following clinical areas:
  - a. Documentation
  - b. Management
5. Close of business: There being no further business the meeting ended at 4:00 p.m.

## Date, time and venue of the next meeting

6. Friday 07 June 2013, 1000 to 1600 at the National Clinical Guidelines Centre, 180 Great Portland Street, London, W1W 5QZ.
