

National Institute for Health and Clinical Excellence

858/1 – Extracorporeal shockwave therapy for refractory greater trochanteric pain syndrome

Consultation Comments table

IPAC date: Thursday 11 November 2010

| Com . no. | Consultee name and organisation | Sec. no. | Comments | Response |
|-----------|---|----------|--|--|
| | | | | Please respond to all comments |
| 1 | Consultee 1 Registrar, Royal College of Physicians | 1 | The Royal College of Physicians (RCP) is grateful for the opportunity to comment on the interventional procedure. 1.1 It seems appropriate that this should only be used with special arrangements for clinical governance, consent, audit and research. | Thank you for your comment. |
| 2 | Consultee 1 Registrar, Royal College of Physicians | 2.1.2 | 2.1.2. It should be noted that corticosteroid injections are often combined with local anaesthetic. | Thank you for your comment. Section 2.1.2 of the guidance will be changed. |

"Comments received in the course of consultations carried out by NICE are published in the interests of openness and transparency, and to promote understanding of how recommendations are developed. The comments are published as a record of the submissions that NICE has received, and are not endorsed by NICE, its officers or advisory committees."
