## NICE guidelines

### Equality impact assessment

#### Type 1 diabetes in adults: diagnosis and management [NG17]

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

##### 4.0 Final guideline (to be completed by the Developer before GE consideration of final guideline)

4.1 Have any additional potential equality issues been raised during the consultation, and, if so, how has the Committee addressed them?
No additional equality issues were raised during consultation.

4.2 If the recommendations have changed after consultation, are there any recommendations that make it more difficult in practice for a specific group to access services compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?
There are no recommendations that make it more difficult in practice for a specific group to access services compared to other groups.

4.3 If the recommendations have changed after consultation, is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
Amendments made to the recommendations after consultation have not resulted in any adverse impact on people with disabilities accessing these products.

**4.4 If the recommendations have changed after consultation, are there any recommendations or explanations that the Committee could make to remove or alleviate barriers to, or difficulties with, access to services identified in question 4.2, or otherwise fulfil NICE's obligations to advance equality?**

There are no recommendations or explanations that could be made to remove or alleviate barriers to or access to services.

**4.5 Have the Committee's considerations of equality issues been described in the final guideline, and, if so, where?**

The Committee's consideration of equality issues is detailed in the committee discussion sections of the evidence review and in the recommendation rationale and impact sections in the final guideline.
