**Notes**

1. JW welcomed the group to the third meeting of this guideline development group (GDG).
2. JW asked all the GDG members and other attendees to declare any new interests that they had accrued since GDG 2.

SE

**Personal non-pecuniary:**

Attended further industry funded GP education meetings (other details as declared previously).

No other new declarations of interest were received from the GDG members or the other attendees. It was agreed that no interests declared at the meeting or previously warranted exclusion of any GDG members from discussions of evidence or formulation of recommendations at the meeting.

Declarations are kept on record at the NCC-WCH and will be published in the full guideline.

3. The minutes from GDG 1 were agreed with one amendment.
4. SC gave a presentation on the role of the NICE editor and the different NICE guideline products. After the presentation, the group had an opportunity to ask questions.
5. MM presented the draft review protocol for the continuous glucose monitoring in type 1 diabetes review question. The group then discussed the protocol and notes were made live on screen.
6. MM presented the draft review protocol for the behavioural interventions specific to needle phobia in type 1 diabetes review question. The group then discussed the protocol and notes were made live on screen.
7. HM presented the draft review for the question on dietetic advice based on glycaemic index for type 1 diabetes (the list of excluded studies, the evidence tables, the evidence profiles and the evidence summary). The group had an opportunity discuss the evidence presented.
8. HM led the group through the process of interpreting the evidence and drafting recommendations for dietetic advice based on glycaemic index for type 1 diabetes. Notes were made live on screen.
9. MM presented the draft review protocol for the general behavioural interventions in type 1 diabetes review question. The group then discussed the protocol and notes were made live on screen.
10. MM presented the draft review protocol for education programmes in type 1 diabetes review question. The group then discussed the protocol and notes were made live on screen.
11. HM presented the draft review protocol for the finger-prick blood glucose testing in type 1 diabetes review question. The group then discussed the protocol and notes were made live on screen.
12. MM described next steps including updating the group about progress on the multiple daily injections versus mixed insulin injections for type 1 diabetes review.
13. There was no other business. JW thanked the participants for attending and closed the meeting.
