---	--	---

Notes

1. PC welcomed the group to the first meeting of this GDG. Apologies were received from Peter Wilson (*GDG member*). No declarations of interest were made by the GDG.
2. FON presented the evidence for the review on the use of body weight versus body surface area for calculating intravenous fluid requirements. The GDG discussed the evidence and drafted recommendations.
3. JN discussed with the GDG with regards to the inclusion of studies focusing on

Notes

the management of hypernatremia arising from causes other than fluid mismanagement.

4. The GDG conducted work on the draft review protocols on resuscitation, maintenance, replacement and redistribution in small groups. The small groups presented their findings to the GDG.

Date, time and venue of the next meeting

Thursday 20th February 2014, 10.30am – 4.30pm at Linacre Room, Royal College of Physicians, London.
