

South Staffordshire PCT

Hi Kate,

I'm representing South Staffordshire PCT which is a consultee on the above TA.

I don't wish to make any representations on the scope of the appraisal as these all look fine to me following comments already made.

I assume I will have access to the evidence submission on which to base comments as a commissioner.

My key concern rests with our commitment to fund the "Risk share" scheme, whereas we would prefer to re-invest in a more evidence based technology- ie better quality and outcomes for no further investment

regards
