NICE is committed to promoting equality, eliminating unlawful discrimination and fostering good relations between people who share a protected characteristic and those who do not. Please let us know if we have missed any important organisations from the stakeholder list, and which organisations we should include that have a particular focus on relevant equality issues.

Definitions

Consultees

Organisations that accept an invitation to participate in the evaluation; the company that markets the technology; national professional organisations; national patient organisations; the Department of Health and Social Care and the Welsh Government and relevant NHS organisations in England.

The company that markets the technology is invited to make an evidence submission, respond to consultations and nominate clinical experts.

All non-company consultees are invited to submit a statement¹, respond to consultations and nominate clinical or patient experts.

Commentators

Organisations that engage in the evaluation process but that are not asked to prepare an evidence submission or statement. These organisations are: companies that market comparator technologies; Healthcare Improvement Scotland; related research groups

¹ Non company consultees are invited to submit statements relevant to the group they are representing.

where appropriate (for example, the Medical Research Council [MRC], National Cancer Research Institute); other groups (for example, the NHS Confederation, NHS Alliance, and the British National Formulary).

All non-company commentators are invited to nominate clinical or patient experts.
