Evidence
Generation

NICE Scientific Advice can develop and present a seminar tailored to the specific requirements of your audience, at a venue of your choice. Our bespoke seminars can help you:

- ◆ **Educate team members** on how to incorporate evidence generation for HTA into trial programmes
- ◆ **Understand the methodology and processes** by which NICE guidance is produced
- ◆ **Learn about NICE Scientific Advice** and how to use the various services we offer
- ◆ **Practice with exercises developed using real-life examples**
