13:25 – Part 2 closed session commenced

1. Introduction to the meeting

The chairman welcomed all members of the committee and other attendees present to the meeting.

2. Any other business

No other business was offered.

3. Minutes of previous meeting

The committee agreed the minutes from the 16th December 2016 committee meeting.

4. MT321 L-Dex for detection of lymphoedema

The chairman welcomed the invited experts to the meeting.

The chairman asked all committee members, experts, NICE staff and observers to declare any relevant interests in relation to the technology being considered.

- Prof Nigel Bundred declared a non-personal financial interest as he is in receipt of an ongoing NIHR programme grant for the WS2 BEA study to

determine the optimal method of detection and threshold for lymphoedema intervention. This study is assessing L-Dex versus perometer in 1,100 patients who have undergone ANC.

- It was agreed that his declaration would not prevent Prof Bundred from acting as an Expert Adviser to the committee.
- Ms Katie Riches declared a personal non-financial interest as she is a user of the device being considered and she is participating in the WS2 BEA study.
 - It was agreed that her declaration would not prevent Ms Riches from acting as an Expert Adviser to the committee.

No further conflicts of interest were declared for the technology.

The committee was asked if there were any specific equality issues to consider in relation to the technology.

The topic was introduced by Prof Eva Kaltenthaler with Prof Nigel Bundred and Ms Katie Riches providing expert advice.

The committee then considered the technology for selection and routing. The selection and routing decision was reached by consensus.

5. MT316 Adacolumn leukapheresis for treating moderate to severe ulcerative colitis

The chairman asked all committee members, NICE staff and observers to declare any relevant interests in relation to the technology being considered.

No conflicts of interest were declared for the technology.

The committee was asked if there were any specific equality issues to consider in relation to the technology.

The topic was introduced by Dr Greg Irving with expert advice provided in advance of the meeting.

The committee then considered the technology for selection and routing. The selection and routing decision was reached by consensus.

6. MT323 gammaCore for cluster headache

The chairman asked all committee members, NICE staff and observers to declare any relevant interests in relation to the technology being considered.

No conflicts of interest were declared for the technology.

The committee was asked if there were any specific equality issues to consider in relation to the technology.

The topic was introduced by Prof Shaheen Hamdy with expert advice provided in advance of the meeting.

The committee then considered the technology for selection and routing. The selection and routing decision was reached by consensus.

7. MT322 The FloShield defogging and cleaning device for laparoscopic surgery

The chairman asked all committee members, NICE staff and observers to declare any relevant interests in relation to the technology being considered.

No conflicts of interest were declared for the technology.

The committee was asked if there were any specific equality issues to consider in relation to the technology.

The topic was introduced by Prof Allan Wailoo with expert advice provided in advance of the meeting.

The committee then considered the technology for selection and routing. The selection and routing decision was reached by consensus.

8. Date of the next meeting

The next meeting of the Medical Technologies Advisory Committee will be held on Friday 17th February 2017 and will start promptly at 10:00am. The meeting will be held at the NICE Manchester offices, Level 1A City Tower, Piccadilly Plaza, Manchester M1 4BT.

15:30 – Meeting ended
