The Committee then discussed the clinical effectiveness, patient perspective and cost effectiveness of olaparib for maintenance treatment of BRCA 1 or 2 mutated, relapsed, platinum-sensitive ovarian, fallopian tube and peritoneal cancer in people whose relapsed disease has responded to platinum-based chemotherapy [ID735] on the basis of the evidence before them, and potential equality issues raised in this appraisal. They sought clarification and advice from the experts present. The discussions included:
 - 11.1. The impact of relapsed platinum sensitive ovarian cancer on patients and their families
 - 11.2. Current clinical management and treatment options for people with relapsed platinum sensitive ovarian cancer
 - 11.3. The clinical effectiveness of olaparib including:
 - 11.4. The reliability of the post hoc subgroup analysis of patients with BRCA gene mutations
 - 11.5. The results of Study 19 for the overall trial population and the subgroup of patients with BRCA gene mutations
 - 11.6. The most appropriate outcomes
 - 11.7. The adverse effects associated with olaparib
 - 11.8. The cost effectiveness of olaparib including:
 - 11.9. The company's 2 economic models and the ERG's critique of these models
 - 11.10. The most plausible ICER and the level of uncertainty surrounding it
 - 11.11. Whether olaparib fulfilled the end of life criteria
 - 11.12. Whether there were any potential equality issues relevant to the appraisal.
12. The Chair asked the company representatives whether they wished to comment on any matters of factual accuracy.
13. The Chair explained that "representatives of the press and other members of the public be excluded from the remainder of this meeting having regard to the confidential nature of the business to be transacted, publicity on which would be prejudicial to the public interest" (Section 1(2) Public Bodies (Admission to Meetings) Act 1960)" and all public attendees left the meeting.
14. The Chair then thanked the experts, company representatives and academic group for their attendance, participation and contribution to the appraisal and they left the meeting.

Part 2 – Closed session

15. The Committee continued to discuss the clinical and cost effectiveness of olaparib for maintenance treatment of BRCA 1 or 2 mutated, relapsed, platinum-sensitive ovarian, fallopian tube and peritoneal cancer in people whose relapsed disease has responded to platinum-based chemotherapy [ID735].
16. The Committee instructed the technical team to prepare the Appraisal Consultation Document (ACD) in line with their decisions.
