

**NATIONAL INSTITUTE FOR HEALTH AND CARE  
EXCELLENCE**

**NICE menu indicator guidance**

**Indicator area: Diabetes**

**Indicator ID: CCG16**

**Indicator CCG16: Proportion of adults with diabetes with a HES recording of National Diabetes Audit complications**

***Rationale***

The aim of diabetes care is to help prevent the complications measured in this indicator as high rates of these can be indicative of poor care.

***Reporting and verification***

**Evidence base**

This is an overarching outcome measure and is therefore attributable to a range of NICE guidance and quality standards.

**What is measured**

Numerator: The number of people with diabetes collected by the National Diabetes Audit (NDA) with a HES

Denominator: Number of people with diabetes collected by the NDA.

## **Data source**

Hospital Episode Statistics (HES)

## **Further information**

This is a guidance document for a NICE menu indicator. The NICE menu of indicators is available online at <http://www.nice.org.uk/standards-and-indicators> .
