

2017 annual review of NICE quality standards

As a result of the annual review of the 148 quality standards published prior to the beginning of April 2017 the following quality standards have been approved by NICE's Guidance Executive for update. These topics will now be prioritised by the organisations that commission quality standards, NHS England, Department of Health and Department for Education, for inclusion in the 2018/19 work programme.

Topic	NICE Guidance Executive decision
QS1 Dementia: support in health and social care	Full update
QS3 Venous thromboembolism: prevention	Full update
QS17 Lung cancer	Full update
QS29 Venous thromboembolism in adults: diagnosis and management	Full update
QS30 Dementia: independence and wellbeing	Full update
QS33 Rheumatoid arthritis in over 16s	Full update
