

National Institute for Health and Care Excellence

4-year surveillance (2016) – [Acute upper gastrointestinal bleeding in over 16s: management](#) (2012) NICE guideline CG141

Appendix B: stakeholder consultation comments table

Consultation dates: 27 June to 8 July 2016

Do you agree with the proposal not to update the guideline?			
Stakeholder	Overall response	Comments	NICE response
Royal College of Nursing	Agree		Thank you for your response.
British Society of Gastroenterology	Agree	<p>There is overwhelming agreement that the guideline on Acute Upper GI Bleeding does not need updating at the present time.</p> <p>The Society awaits with great interest the results from the HALT-IT trial on the utility of Tranexamic acid in acute upper GI bleeding.</p>	<p>Thank you for your comments.</p> <p>We will monitor the progress of the HALT-IT trial and consider the results once they are published.</p>
Royal College of Physicians	Agree	We would like to formally endorse the response submitted by the British Society of Gastroenterology.	Thank you for your comments.
Do you have any comments on equalities issues?			
Stakeholder	Overall response	Comments	NICE response
British Society of Gastroenterology	No		Thank you for your response.
