Notes

Day 1

1. Peter Barry welcomed the group to the fourth meeting of this GDG. Apologies were received from Lina Gulhane (Senior Information Scientist, NCGC). The Chair introduced Catharine Baden-Daintree, Senior Medical Editor at NICE. The Chair asked all GDG members to declare any new interests. Peter Selby declared he is about to receive Speaker fee from Amgen; Frances Dockery declares she has received speaker fee from Riomed. These interests were not considered to represent conflicts for the business planned for the day.
2. The Chair gave a presentation on summary of development and remaining challenges.
3. The Chair led a discussion on review of recommendations on simple clinical measures for targeting people for risk assessment of fragility fracture.
4. The Chair introduced Rosa Lau, and Research Fellow at NCGC, who gave a presentation on the clinical evidence on reclassification of people at risk of fragility fracture, and took questions from the group. The GDG then discussed the issues presented in relation to this guideline. The Chair thanked Rosa Lau for her presentation.
5. The Chair closed the first day of the meeting and thanked everybody for attending.

Day 2

6. Peter Barry reconvened the group to the fourth meeting of this GDG.
7. The Chair led a discussion on the risk assessment tools for fragility fracture, and recommendations were revised, with particular attention to the subgroups.
8. The Chair led a discussion on the research recommendations, and these were drafted.
9. The Chair closed the meeting and thanked everybody for attending.

Date, time and venue of the next meeting:

Tuesday 20th March, 10:00-16:00, at NCGC, 180 Great Portland Street, London W1W 5QZ.
