

Fertility: Guideline Update

1 Background

The Fertility: assessment and treatment for people with fertility problems guideline (CG156) was reviewed in 2015 as part of NICE's routine surveillance programme to decide whether the guideline requires updating.

2 Surveillance programme findings

The surveillance report can be found [here](#).

3 Guideline Update

We are answering the following question:

- What is the effectiveness of intrauterine insemination (IUI) compared with expectant management in people with unexplained infertility, mild endometriosis or 'mild' male factor infertility?

4 Guideline Update process

The guideline update will be produced using a standing Committee. NICE are piloting the use of a standing Committee for guideline updates. More information about the pilot can be found here: [Guideline Updates](#)

Committee meeting dates:

- Development – 30th March 2016
- Post-consultation – 27th June 2016

Consultation dates: 12th May to 10th June 2016

Expected publication date: 17th August 2016
