

Obesity

Identification, assessment and management of
overweight and obesity in children, young people and
adults

Update of CG43

Appendix B

November 2014

*Commissioned by the National Institute for
Health and Care Excellence*

Disclaimer

Healthcare professionals are expected to take NICE clinical guidelines fully into account when exercising their clinical judgement. However, the guidance does not override the responsibility of healthcare professionals to make decisions appropriate to the circumstances of each patient, in consultation with the patient and/or their guardian or carer.

B.12 John Wilding

GDG meeting	Declaration of Interests	Action taken
Original DoI	None	None
GDG1 10/02/14	<p>Has presented for a number of pharma companies including Astellas, AstraZeneca, Boehringer Ingelheim, Bristol-Myers Squibb, Janssen, Lilly, Merck Sharpe & Dohme and Novo Nordisk in the last 12 months. Any funds received have been within reasonable limits. Is a primary investigator on a number of ongoing diabetes clinical trials: AstraZeneca/Bristol-Myers Squibb – dapagliflozin for diabetes (1 investigator- initiated study), Janssen – canagliflozin for diabetes (ongoing study), Merck Sharpe & Dohme – sitagliptin for diabetes (ongoing study), Novo Nordisk – liraglutide for obesity (ongoing study). Also lead author and investigator for Nova Nordisk diabetes drug – semaglutide for diabetes (ongoing trial). This is being used for the management of obesity, but is beyond the scope for this guideline update which has excluded the pharmacological management of obesity. Committee member and trustee for ASO which does get sponsorship from some companies (Kelloggs (not continued from November 13), Tanita, Seca, LighterLife, Weight Watchers). It was noted that sponsorship is no longer being accepted and that JW has no involvement in the administration of these funds. Has also received travel grants within reasonable limits to attend conferences (AstraZeneca, Boehringer Ingelheim, Bristol-Myers Squibb, Janssen, Lilly).</p>	None
