

2024 surveillance of lower urinary tract symptoms in men: management (NICE guideline CG97)

Surveillance report

Published: 5 August 2024

www.nice.org.uk

Prioritisation board agreed that this is a large population group where updated recommendations are likely to improve care.

Review decision: Prioritised

We have reprioritised the [2019 surveillance decision](#) and will update this guideline. The update will focus on [surgical treatment for voiding symptoms](#).
