

St Georges on-line patient questionnaire

1. Did your GP explain the purpose of carrying out the stool test?
2. If you answered yes to question 1, how well do you feel this was explained?
3. As a result of your own understanding/ discussion with your GP, do you feel you have a good understanding of why the test was carried out?
4. Did you find it easy to supply the sample?
5. Were you informed that the test was negative?
6. Did you feel reassured by the negative result?
7. Do you feel that your symptoms were adequately investigated?
8. Were you referred to a specialist gastroenterologist despite a negative result?
