Equality impact assessment: Guidance update scoping

MT169/MTG18: The MAGEC system for spinal lengthening in children with scoliosis

The impact on equality has been assessed during this evaluation according to the principles of the [NICE Equality scheme](#).

1. Have any potential equality issues been identified during the guidance review, and, if so, what are they?

No potential equality issues were identified in the guidance review decision.

2. What is the preliminary view as to what extent these potential equality issues need addressing by the committee?

No issues.

3. Has any change to the draft scope been agreed to highlight potential equality issues?

No change.

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the stakeholder list been made?

None identified.
