HTG19 – Partial left ventriculectomy (the Batista procedure)

SNOMED CT provides clinical terms for entry into the patient record to record clinical information relevant to that encounter; the mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure and device:

SNOMED CT preferred term (concept ID)

Partial excision of left ventricle of heart (428679005)

OPCS-4 code(s):

K23.5 Partial left ventriculectomy

Note: In cases where the procedure is performed with the aid of cardiopulmonary bypass OPCS-4 code **Y73.1 Cardiopulmonary bypass** is assigned in addition.

Note: OPCS-4 codes **K25.5 Mitral valve repair NEC** and **K34.1 Annuloplasty of mitral valve** may also be assigned when these procedures have also been performed.

Diagnosis or health condition:

SNOMED CT preferred term (concept ID)

Left heart failure (85232009)

Clinical coding recommendations for NICE guidance

For each published interventional procedure and medical technologies guidance, we work with the Health and Social Care Information Centre (HSCIC) to provide relevant clinical coding information.

SNOMED CT provides clinical terms for entry into the patient record to store clinical information relevant to that encounter.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

The UK Edition of SNOMED CT is managed by the Clinical Terminology Service of the Health and Social Care Information Centre. For further information including licensing, see UK Terminology Centre — Health and Social Care Information Centre

The Clinical Classifications Service of the Health and Social Care Information Centre is the central definitive source for clinical coding guidance and determines the coding standards associated with the classifications (OPCS-4 and ICD-10) to be used across the NHS. The Clinical Classifications Service and NICE work collaboratively to ensure the most appropriate classification codes are provided. Clinical Classifications Service — Health and Social Care Information Centre.
