

## **HTG215 - Limited macular translocation for wet age-related macular degeneration**

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

**Procedure:**

**OPCS-4 code(s):**

**C83.3 Limited macular translocation**

**Diagnosis or health condition:**

**ICD-10 code(s):**

**H35.3 Degeneration of macula and posterior pole**

---

## Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
