Depth of anaesthesia monitors – Bispectral Index (BIS), E-Entropy and Narcotrend-Compact M: review decision

Review of NICE Diagnostics Guidance No. DG6; Depth of anaesthesia monitors – Bispectral Index (BIS), E-Entropy and Narcotrend-Compact M

Decision to transfer the existing guidance to the static list.

The Institute was proposing that this guidance was transferred to the static list. During consultation, the majority of comments received by the Institute agreed with the proposal put forward. After consideration of all of the comments, the Institute's Guidance Executive has decided to proceed with the proposal.
