

## HTG351 - Assessing motility of the gastrointestinal tract using a wireless capsule

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

### Procedure:

#### OPCS-4 code(s):

**U17.7 Wireless capsule endoscopy of digestive tract**

Plus

**Z27.9 Upper digestive tract NEC**

Or

**Z27.7 Small intestine**

Or

**Z28.7 Colon NEC**

**Note:** The site code assigned is dependent on the site of the abnormalities investigated.

### Diagnosis or health condition:

#### ICD-10 code(s):

The ICD-10 code assigned is dependent on the specific diagnosis.

---

## Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
