HTG492 Percutaneous insertion of a temporary catheter-based heart pump for partial/short-term left ventricular hemodynamic support before and during high risk percutaneous coronary interventions

SNOMED CT provides clinical terms for entry into the patient record to record clinical information relevant to that encounter; the mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure and device:

SNOMED CT preferred term (concept ID)

Fluoroscopy guided percutaneous insertion of temporary heart pump (1102021000000102)

OPCS-4 code(s):

The following OPCS-4 codes classify this operation, when performed under fluoroscopic guidance:

K56.2 Transluminal insertion of heart assist system NEC

Y53.4 Approach to organ under fluoroscopic control

Y70.5 Temporary operations

Diagnosis or health condition:

SNOMED CT preferred term (concept ID)

Coronary arteriosclerosis (53741008)

ICD-10 code(s):

I25.1 Atherosclerotic heart disease

Clinical coding recommendations for NICE guidance

For each published interventional procedure and medical technologies guidance, we work with NHS Digital to provide relevant clinical coding information.

SNOMED CT provides clinical terms for entry into the patient record to store clinical information relevant to that encounter.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

The UK Edition of SNOMED CT is managed by the Clinical Terminology Service of NHS Digital. For further information including licensing, see here.

The Clinical Classifications Service of NHS Digital is the central definitive source for clinical coding guidance and determines the coding standards associated with the classifications (OPCS-4 and ICD-10) to be used across the NHS. The Clinical Classifications Service and NICE work collaboratively to ensure the most appropriate classification codes are provided. Clinical Classifications Service — NHS Digital.
