

UrgoStart for treating diabetic foot ulcers and leg ulcers

Information for the public

Published: 31 January 2019

www.nice.org.uk

NICE has assessed UrgoStart for treating diabetic foot ulcers and leg ulcers to help the NHS decide whether to use this product.

UrgoStart dressings should be considered for diabetic foot ulcers and venous leg ulcers because evidence shows they work better than standard dressings. They should not be used for non-venous leg ulcers.
