

# December 2025 exceptional surveillance of point-of-care creatinine devices to assess kidney function before CT imaging with intravenous contrast (NICE healthtech guidance 530)

Surveillance report

Published: 18 December 2025

[www.nice.org.uk](https://www.nice.org.uk)

In December 2025, we reviewed the recommendations on point-of-care creatinine devices for assessing kidney function before CT imaging with intravenous contrast.

## Surveillance decision

We will not update the guidance as the new evidence that is available is insufficient to warrant an update.
