

HTG577 Deep brain stimulation for obsessive-compulsive disorder

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s):

A09.1 Implantation of brain neurostimulator

Note; If the neurostimulator is inserted using CT/MRI guidance intraoperatively the following codes may be assigned following A09.1:

Y53.3 Approach to organ under computed tomography scan control

And/or

Y53.7 Approach to organ under magnetic resonance imaging control

Diagnosis or health condition:

ICD-10 code(s):

F42.- Obsessive-compulsive disorder

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS Digital to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS Digital is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
