

HTG62 – Wireless capsule endoscopy for investigation of the small bowel

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s):

U17.7 Wireless capsule endoscopy of digestive tract

Z27.7 Small intestine

Note: Where both the small and large intestine have been examined, **Z29.9 Bowel NEC** is assigned in preference to **Z27.7**.

Diagnosis or health condition:

The ICD-10 code to classify the reason for investigation is assigned.

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
