HTG634 Insertion of aortic arch remodelling graft as an adjunct to surgical repair of acute aortic dissection

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s)

> **L20.2 Emergency bypass of segment of thoracic aorta by anastomosis of aorta to aorta NEC**

Or

> **L21.2 Bypass of segment of thoracic aorta by anastomosis of aorta to aorta NEC**

Plus

> **Z34.2 Aortic arch**
>
> **O20.3 Endovascular placement of one stent graft NEC**
>
> **Z34.2 Aortic arch**
>
> **Y73.1 Cardiopulmonary bypass** *(if used)*

Diagnosis or health condition:

ICD-10 code(s):

> **I71.0 Dissection of aorta [any part]**

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS Digital to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS Digital is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see here.
