Y76.9 Unspecified minimal access to other body cavity

Y53.- Approach to organ under image control

Z80.1 First metatarsal

Z94.- Laterality of operation

Diagnosis or health condition:

ICD-10 code(s):

M20.1 Hallux valgus

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
