IPG170 – Living-donor lung transplantation for end-stage lung dieases

SNOMED CT provides clinical terms for entry into the patient record to record clinical information relevant to that encounter; the mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure and device:

SNOMED CT preferred term (concept ID)

For the donor:
Harvesting of lobe of lung from living donor (702544007)

For the recipient:
Allotransplantation of lobe of lung from live donor (820361000000105)

OPCS-4 code(s):

For the donor:
X45.3 Donation of lobe of lung
Z94.2 Right sided operation
or
Z94.3 Left sided operation

For the recipient:
E53.8 Other specified transplantation of lung
Y99.2 Live related donor NEC
or
Y99.3 Live unrelated donor
or
Y99.5 Live matched related donor
or
Y99.6 Live unmatched related donor
Y73.1 Cardiopulmonary bypass (if used)
Z94.2 Right sided operation
or
Z94.3 Left sided operation
or
Z94.1 Bilateral operation

Clinical coding recommendations for NICE guidance

For each published interventional procedure and medical technologies guidance, we work with NHS Digital to provide relevant clinical coding information.

SNOMED CT provides clinical terms for entry into the patient record to store clinical information relevant to that encounter.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

The UK Edition of SNOMED CT is managed by the Clinical Terminology Service of NHS Digital. For further information including licensing, see UK Terminology Centre — NHS Digital.

The Clinical Classifications Service of the Health and Social Care Information Centre is the central definitive source for clinical coding guidance and determines the coding standards associated with the classifications (OPCS-4 and ICD-10) to be used across the NHS. The Clinical Classifications Service and NICE work collaboratively to ensure the most appropriate classification codes are provided. Clinical Classifications Service — NHS Digital.
