

IPG593 Intramuscular diaphragm stimulation for ventilator-dependent chronic respiratory failure caused by motor neurone disease

SNOMED CT provides clinical terms for entry into the patient record to record clinical information relevant to that encounter; the mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure and device:

SNOMED CT preferred term (concept ID)

A request for a new SNOMED CT code has been submitted for the next release. SNOMED CT Submission Portal request reference number 22099.

OPCS-4 code(s):

A70.1 Implantation of peripheral nerve neurostimulator

Y75.2 Laparoscopic approach to abdominal cavity NEC

Z53.1 Diaphragm

Diagnosis or health condition:

SNOMED CT preferred term (concept ID)

A request for a new SNOMED CT code has been submitted for the next release. SNOMED CT Submission Portal request reference number 22099.

ICD-10 code(s):

J96.1 Chronic respiratory failure

G12.2 Motor neuron disease

Please note the fifth character subdivisions at ICD-10 category **J96 Respiratory failure, not elsewhere classified** indicate the type of failure and must always be assigned whether the type has been specified (0,1) or unspecified (9).

Clinical coding recommendations for NICE guidance

For each published interventional procedure and medical technologies guidance, we work with NHS Digital to provide relevant clinical coding information.

SNOMED CT provides clinical terms for entry into the patient record to store clinical information relevant to that encounter.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate SNOMED CT, OPCS-4 and ICD codes are provided.

NHS Digital is the national release centre for the UK edition of SNOMED CT, ICD and OPCS-4. Further SNOMED CT information including licensing, see <u>here</u>. Further Classifications information, see <u>here</u>.
