

IPG698 - Electrohydraulic lithotripsy for difficult-to-treat bile duct stones

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s):

J41.3 Endoscopic retrograde lithotripsy of calculus of bile duct

Y17.6 Electrohydraulic lithotripsy of lesion of organ NOC

Diagnosis or health condition:

ICD-10 code(s):

K80.5 Calculus of bile duct without cholangitis or cholecystitis

Or

K80.3 Calculus of bile duct with cholangitis

Or

K80.4 Calculus of bile duct with cholecystitis

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
