OPCS-4 code(s):

G43.1 Fiberoptic endoscopic snare resection of lesion of upper gastrointestinal tract

Z27.2 Stomach

Diagnosis or health condition:

ICD-10 code(s):

D37.1 Neoplasm of uncertain or unknown behaviour, Stomach

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS Digital to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS Digital is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
