T74.5 Extracorporeal shockwave lithotripsy of calculus of tendon

Z54.- Muscle of shoulder or upper arm

Fourth character assignment will be dependent on site stated in operation note

Diagnosis or health condition:

ICD-10 code(s):

M75.3 Calcific tendinitis of shoulder

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS Digital to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS Digital is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
