

IP1879 – Endoscopic ultrasound-guided biliary drainage for biliary obstruction

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s):

J33.3 Drainage of bile duct NEC

Y76.4 Endoscopic ultrasonic approach to other body cavity

Y14.- Placement of stent in organ NOC

Diagnosis or health condition:

ICD-10 code(s):

Bile duct obstruction without calculus

K83.1 Obstruction of bile duct

Bile duct obstruction with calculus

K80.3 Calculus of bile duct with cholangitis

Or

K80.4 Calculus of bile duct with cholecystitis

Or

K80.5 Calculus of bile duct without cholangitis or cholecystitis

Note: It is possible other ICD-10 codes could be assigned, depending on the condition causing the obstruction.

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
