G14.5 Fibreoptic endoscopic destruction of lesion of oesophagus NEC
Y13.2 Cryotherapy to lesion of organ NOC

Diagnosis or health condition:

ICD-10 code(s):

K22.7 Barrett oesophagus

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information see [NHS England Digital Clinical Classifications](#).
