

# Economic Plan

This document identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

## 1 Guideline

Challenging behaviour and learning disabilities: prevention and interventions for people with learning disabilities whose behaviour challenges (Challenging behaviour and learning disabilities)

## 2 List of Modelling Questions

<b>Clinical questions by scope area</b>	<b>Psychosocial Interventions aimed at reducing and managing behaviour that challenges</b>
Population	Children with learning disabilities and behaviour that challenges
Interventions considered for inclusion	Parent training additional to standard care Standard care alone
Type of analysis	Cost Utility Analysis (CUA)

<b>Clinical questions by scope area</b>	<b>Pharmacological Interventions aimed at reducing and managing behaviour that challenges</b>
Population	Children with learning disabilities and behaviour that challenges
Interventions considered for inclusion	Risperidone Aripiprazole Placebo
Type of analysis	CUA

<b>Clinical questions by scope area</b>	<b>Interventions for sleep problems</b>
Population	Children with learning disabilities and sleep problems
Interventions considered for inclusion	Psychological intervention Melatonin Combination therapy Wait list
Type of analysis	CUA
