## Committee minutes – COPD meeting 4

### 1. Welcome and objectives for the meeting

The Chair welcomed the Committee members and attendees to the fourth meeting on chronic obstructive pulmonary disorder (COPD) and asked all to introduce themselves.

The Chair informed the Committee of apologies as listed above.

The Chair asked everyone to verbally declare any new interests arising since the last meeting.

The Chair and a senior member of the Developer's team noted that the interests declared did not prevent the attendees from fully participating in the meeting.

### 2. Editorial presentation

James Hall, Senior Editor, gave a presentation on the editorial process and the role of the editor in the committee.

### 3. Review Question

The committee discussed the clinical evidence for the following review question and discussed draft recommendations and the equalities impact assessment:

Part 1- education

- What is the clinical and cost effectiveness of self-management interventions (including telehealth monitoring) and education for improving outcomes and adherence to treatment in people with stable COPD?

In total, three recommendations were made on patient education, including cross-references to other relevant pieces of NICE guidance.

### 4. Review Question

The Committee discussed the clinical and economic evidence for the following review question and discussed draft recommendations and the equalities impact assessment:

Part 2 – self-management

- What is the clinical and cost effectiveness of self-management interventions (including telehealth monitoring) and education for improving outcomes and adherence to treatment in people with stable COPD?

In total, seven recommendations were made on patient education, including cross-references to other relevant pieces of NICE guidance. The committee also discussed the importance of linking these recommendations made on self-management to

those in other parts of the pathway (such as pulmonary rehabilitation) not included as part of the update, to ensure a coherent pathway was produced overall.

### **5. Any Other Business and Next Steps**

The committee agreed to review the final part of the review question on telehealth monitoring at the next meeting in October.

**Date of next meeting:** 23 & 24 October 2017

**Location of next meeting:** Manchester, NICE offices
