

## Membership of Intrapartum care for women with existing medical conditions or obstetric complications and their babies Guideline Committee – Medical conditions

The Committee will operate as an advisory Committee to NICE's Board, developing a guideline on Intrapartum care for women with existing medical conditions or obstetric complications and their babies.

The terms of reference and standing orders for the Committee can be found in [appendix D of Developing NICE guidelines: the manual](#).

Variations to the terms of reference: there are two guideline committees, each developing recommendations for part of the guideline (in this case for women at high risk of adverse outcomes for themselves and/or their baby because of existing maternal medical conditions – see separate document for membership of the Guideline Committee for women at high risk of adverse outcomes for themselves and/or their baby because of obstetric complications or other reasons).

The Committee has 13 members and 5 co-opted members.

### Membership list

Agreed constituency	Name	Job Title, Organisation	Comment
<b>Chair</b>			
Chair (from May 2016)	David Williams	Consultant Obstetric Physician, Institute for Women's Health, University College London Hospitals	
Chair (until February 2016)	Jane Norman	Professor of Maternal and Fetal Health, Honorary Consultant Obstetrician, University of

## Declaration of Interests

The effective management of conflicts of interests is an essential element in the development of the guidance and advice that NICE publishes. Please refer to the NICE website for the [Policy on Conflicts of Interest](#).

Interests declared up to and including January 2018 reflected NICE's 2014 policy; thereafter interests were recorded in accordance with the 2018 policy.

Name	Job title, organisation	Declarations of Interest, date declared (recruitment / committee meeting)	Type of interest	Decision taken
Parivakkam Arunakumari	Consultant Gynaecologist, Norfolk and Norwich University Hospital NHS Trust	20/01/2016 Member of the Royal College of Obstetricians and Gynaecologists (RCOG) Guidelines Committee	Direct, non-financial professional and personal non-specific	Declare and remain
David Carty (co-opted)	Consultant Endocrinologist, Glasgow Royal Infirmary	12/07/2017 Received payment for speaking at educational meetings on type 2 diabetes from Boehringer-Ingelheim and Janssen	Direct, financial non-specific	Declare and remain
