Sara Thorne	Consultant Cardiologist, University Hospital Birmingham	30.1.2017 Prepared local intrapartum anaesthesia/analgesia guidelines used by	Personal non- financial specific	Declare and continue

Birmingham.

The Chair and a senior member of the Developer's team noted that the interests declared did not prevent the attendee from fully participating in this meeting.

3. Minutes of last meeting

The Chair asked the Committee if it wanted any changes made to the minutes of the last meeting. The Committee agreed that the minutes were a true and accurate account of the meeting.

The Chair confirmed that all matters arising had been completed or were in hand.

4. Presentations

The Chair introduced Shona Burman-Roy, NGA Senior Systematic Reviewer, who gave a presentation on Protocol: What is the appropriate management of anticoagulation for women with valvular disease in planning for childbirth?

The Chair introduced Rami Cosulich, NGA Assistant Systematic Reviewer, and Abigail Moore, NGA Assistant Systematic Reviewer, who gave a presentation on Evidence Review: Which women with cardiac disease should be offered elective caesarean section or assisted second stage for reasons specific to cardiac disease?

The Chair introduced May Oo Khin, NGA Systematic Reviewer, who gave a presentation on Protocol: What are the risks and benefits of central neuraxial analgesia compared with systemic analgesia, inhaled analgesia or no analgesia for women with cardiac disease who are in labour?

The Chair introduced Shona Burman-Roy, NGA Senior Systematic Reviewer, who gave a presentation on Protocol: Which women with cardiac conditions need additional haemodynamic monitoring or management during childbirth: input–output chart of fluid balance with a urinary catheter or urometer; invasive monitoring using an arterial line and central venous pressure; cardiac monitoring; fluid restriction?

The Chair introduced Shona Burman-Roy, NGA Senior Systematic Reviewer, and May Oo Khin, NGA Systematic Reviewer, who gave a presentation on Evidence review: What history, clinical examination and investigation is most useful to stratify the intrapartum risk for women with cardiac disease?

The Committee then discussed the issues presented in relation to this guideline.

The Committee thanked the speakers for their presentations and contribution to the

development of the guideline.

5. Questions and discussion

The Committee discussed the evidence reviews and proposed recommendations. The Committee discussed the protocols and were given the opportunity to ask questions and make amendments.

6. Any other business

Committee members noted that the MBRRACE report has now been published.

Date of next meeting: 08/03/17

Location of next meeting: RCOG, London
