

November 2024 surveillance of hypertension in adults: diagnosis and management (NICE guideline NG136)

Surveillance report

Published: 27 November 2024

www.nice.org.uk

We are monitoring the ongoing research on the response to antihypertensive drugs in different ethnic groups that may impact recommendations in this guideline. Expected publication of the evidence is early 2025.

Surveillance decision

We will check the evidence when published and make a decision whether to update this guideline at this time.
