

Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

1 Guideline

Twin and triplet pregnancy

2 List of modelling questions

Review questions by scope area	<p>What is the optimal screening programme to predict the risk of spontaneous preterm birth?</p> <p>What interventions are effective in preventing spontaneous preterm birth in twin and triplet pregnancy?</p>
Population	Women with a twin pregnancy
Interventions and comparators considered for inclusion	<p><u>Screening</u></p> <ul style="list-style-type: none"> No screening Screening using different cervical length thresholds (5mm, 10mm, 15mm, 20mm and 25 mm) <p><u>Treatment</u></p> <ul style="list-style-type: none"> No treatment Vaginal progesterone
Perspective	NHS + Personal Social Services
Outcomes	QALY
Type of analysis	CUA
Issues to note	This model is a screen and treat model and therefore covers 2 review questions
