

# April 2025 exceptional surveillance of fever in under 5s: assessment and initial management (NICE guideline NG143)

Surveillance report

Published: 30 April 2025

[www.nice.org.uk](https://www.nice.org.uk)

In April 2025, we reviewed this guideline in the area of [identifying risk of serious illness](#).

## Surveillance decision

We will not update the section on identifying risk of serious illness including the traffic light system in table 2.
