

Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

1 Guideline

Supporting adult carers

2 List of modelling questions

Review questions by scope area	What are the most effective, cost-effective and acceptable interventions, tools or approaches to support adult carers to enter, remain in, and/or return to (i) work, (ii) education, and (iii) training?
Population	Adult carers not working due to caring
Interventions and comparators considered for inclusion	<ul style="list-style-type: none"> • Replacement care • No replacement care
Perspective	Societal
Outcomes	QALY
Type of analysis	Cost minimisation and cost utility analysis (CUA)
Issues to note	In the absence of data, utility values for the CUA are modelled on a “what-if” basis
