Equality impact assessment**

Neonatal parenteral nutrition

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

2.0 Checking for updates and scope: after consultation (to be completed by the Developer and submitted with the revised scope)

2.1 Have any potential equality issues been identified during consultation, and, if so, what are they?
--

No potential equality issues were raised by stakeholders.

2.2 Have any changes to the scope been made as a result of consultation to highlight potential equality issues?

N/A

2.3 Is the primary focus of the guideline a population with a specific disability-related communication need?

If so, is an alternative version of the 'information for the public' recommended?

If so, which alternative version is recommended?

The alternative versions available are:

- large font or audio versions for a population with sight loss
- British Sign Language videos for a population deaf from birth
- 'Easy read' versions for people with learning disabilities or cognitive impairment.

N/A
